

FMPR-000

16.4 pound limestone block

Released to a limited public in an open floor plan work environment on the 10th floor of 112 South Michigan Avenue, Chicago, IL throughout the month of March 2015 in a bath of distilled white vinegar. As the record was released indoors, weather patterns had no bearing on the record's dissemination.

Limestone retrieved in November 2014 from the quarry of the Illinois State Penitentiary in Joliet, IL (penitentiary operational 1858-2002).

This release took place before the formal advent of the Fake Music Physical Releases imprint, hence the catalog number and the limited release.
