

Fake Music Re-Anticipations

VOLVO Complete Catalog

FMR -001

Released 11/2/2014

We are proud to present as the first nonreissue in our Re-Anticipatons series the lack of a catalog of VOLVO, a Dutch rock-and-roll band who in the 1980s did not play, perform, or record. We are happy not to offer their work in any medium for new generations neither to listen to nor enjoy.

We appreciate your support.
