Reynols – Gordura Vegetal Hidrogenada

FMR -002

Released 12/24/14

We are beyond thrilled to make available a digital version of Burt Reynols Ensemble's 1995 debut, *Gordura Vegetal Hidrogenada*, a CD jewel case containing no CD. Despite subsequent releases, band member Miguel Tomasín has asserted the band does not exist. With this non-reissue we affirm the truth of Tomasín's contention: Reynols does not exist.

As a digital release, the non-reissue is located at the current URL and maintains the tracklisting of the 1995 release:

- 1 Aire Enlatado
- 2 Cero % Carne Vacuna
- 3 Me Parece Que Me Morí
- 4 Biblias De 55 Km
- 5 Codazo Volador
